INSTALLATION, MAINTENANCE & PARTS LIST MANUAL

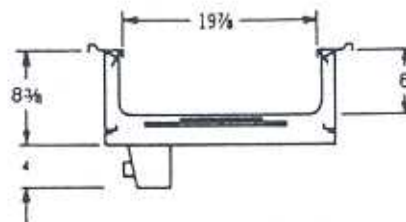

WIH SERIES ELECTRIC HEATED UNIT WITH AUTOMATIC WATER FILL

INSTALLATION

Cut required opening in counter top (see chart below) and drop in. The vinyl gasket assures complete seating. A silicone mat be used between the gasket and counter top.

Model Number	Cut-Out Opening
**WIH-1	22 ¹ / ₄ x 15 ⁷ / ₁₆
WIH-2	22 ¹ / ₄ x 28 ³ / ₄
WIH-3	22 ¹ / ₄ x 42 ¹ / ₂
WIH-4	22 ¹ / ₄ x 56 ¹ / ₄
WIH-5	22 ¹ / ₄ x 70
WIH-6	22 ¹ / ₄ x 83 ³ / ₄

**Control Panel on 14¹/₄ Side

(SIDE SECTIONAL VIEW)

Operation

Unit comes with power cord and nema plug. Plug in to appropriate power source. The Auto Fill Assembly is pre-set at the factory. Do not try to adjust this unit for any reason. Any attempt to change or modify the location of this unit, will void the factory warranty. A setting of 10 on the thermostat dial will result in the highest temperature.

Maintenance

Proper cleaning of the unit is all that is required. When rubbing or scouring, always move gently in the direction of the polish lines (grain). A Scotch Brite general purpose pad may be used. DO NOT USE STEEL WOOL. DO NOT USE ANY DE-LIMEING PRODUCT ON THIS UNIT.
