## DAILY OPERATION PROCEDURES TO FOLLOW

1  
 At the beginning of the day  
 Make sure dishwasher is empty of water  
 and the wash tank is clean of debris.

2  
 Close the door  
 and press the power button.  
 Wait 20 minutes for the water to  
 attain optimum washing temperatures.

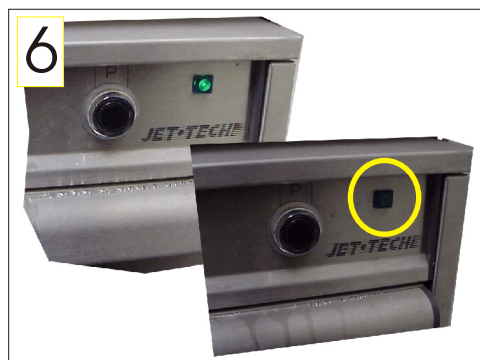

3  
 Pre-rinse dishes and/or glasses and cups.

4  
 Load rack in the dishwasher,  
 Close the door.

5  
**Start Wash Cycle**  
 Press the Start button.

6  
 Wait for the green light to turn off  
 before taking the tray out.  
 Take the tray out to let air-dry the dishes.  
 Repeat from step #3.
