INTERNATIONAL ORDERS

In an ever expanding international marketplace it is necessary for a domestic dealer in limited situations to become involved in an opportunity that will result in a contractual sale. In this instance MagiKitch'n must respond to its domestic dealer and, while recognizing the importance of our international distributor, ultimately ensure proper service to the customer after the sale.

MagiKitch'n in limited instances where a domestic dealer involvement requires us to ship equipment into the international marketplace will require pricing to US dealer at published dealer net plus 10%. In CE countries a surcharge 4.5% on all models. Not all models are available, please contact the Customer Service Department for specific details.
